Coypright, 1909 By George Dyre Eldridge

(Continued from Page 8.)

ing before the alarm Grimbleshaw warning had aroused. "No, not if your physician is within quick reach and understands the case Yes, otherwise, Send whoever you select to me; there's too much hazard in taking time to make an independent

study of the case." "I certainly appreciate your kindness," replied Reed. "Your bill, if you can tell me what balance is due," and he reached his hand for his pocket-

"I don't carry those things in my mind." said Grimbleshaw, distantly. He never had felt the emptiness of his own pecketbook more keenly than at this moment, but whatever came he would not forget the dignity of the physician. "I will mail it to you."

So that was over, and like a thunder-clap. What did it mean? He had certainly earned his place at the bedside of this woman, for he had known neither time nor rest in her service. It had more than once happened that to have admitted the claim of either would have turned the scale from life to death. Indeed, he remembered, almost with a smile even now at the ludicrousness of the affair, a winter's night when he hurried to her, clad in his bedroom robe and night slipp rs. over which he had thrown his buffalo coat. He could feel the tingle of the cold on his ankles as he shot from the door to the waiting sleigh. That night he was certain he had saved her life, and now he was dismissed, and that without a word of explanation or complaint!

As he came into his room the tele phone bell was ringing, ringing as it does when some one is prodding central from the other end, and she spends her irritation on the irresponsive bell. Grimbleshaw stepped to the instrument with a sharp "Hello; who's

"Is that Dr. Grimbleshaw?" came the response, and the hearer gave a start, in spite of his natural and cultivated power of self-control.

"Yes. What is it?" "You recognize my voice?" "Yes, Mr. Cal-"

"There's no need of names," came an almost angry interruption. "It's enough that you know. Even telephones, like walls, have ears." "Well, then, I recognize you. Has

anything happened? To your mother "No. 'Twasn't about her I wanted

to speak. That man from down the river-you know?" "Yes, yes! What of him?"

"Has he been to see you yet?" "Yes, to-day. But really, Mr.—"
"Careful! I know—hush! Here's some one coming. I'll have to call you again. Good-bye!"

Well, I'll be switched! Any one to have heard him would have thought we were thicker'n thieves! I wonder what the fool can be driving at? I thought something had happened to-

his pocket and discovered his letters. was from an old college mate. and he recalled that he had thought him a fool for accepting a subordinate place at the Hacklebury Insane Asyed income. Maybe, after all, that monthly salary, regularly paid by the stale, wasn't to be sneezed at. He tore open the envelope and read two pages of chaff and gossip, and then suddenly came to a bit of news that fitted as a wonder of coincidence into the chain of recent events.

"I must tell you of an escaped patient we have, or rather haven't, inasmuch as he has escaped. You'll find the tall end the interesting part, as the Irishman said of the wasp. He'd been here about ten years, and if you and I were as sane, under the same circumstances, we'd be in state's

"He stole a whole trust company, or national bank, or something of the kind, and then used part of the money to hire somebody to pronounce him in-sane. He wasn't crazy enough, however, to give up the rest, so that, in the end, the bank had swapped off the money for a crazy prisoner, or what practically amounted to that.

"Why he stayed here so long beats me. They'd come to let him have all sorts of privileges, and he could have walked off any day within the last five years. He had come to be a sort of showpiece, for everybody round here knew something of his history and wanted to see him when they came to the asylum. Beyond that he wasn't of much trouble, or much use, ns far as that goes; but he was a gen-tleman, and I think he had something of a sense of honor, because of the trust placed in him, and felt that he would violate it by running away.

"He was always denouncing the authorities for sending him here instead of trying him, and always threatening to ask to be tried, but nobody paid any attention to him, which is one of the advantages of being crazy, or being thought crazy; for you can threaten all sorts of things which you don't want to happen and nobody will take you at your word.

"But about a week ago he just quietly walked off, and nobody has seen hide or hair of him since. We aren't making much fuss about it, and the authorities say they are keeping it dark as a better means of catching him. At any rate, they've kept it out of the papers, and that's a thing to be accomplished, when you want to accomplish it, with the greatest difficulty. You've got to be awful smart, or awful stupid.

"Ordinarily I shouldn't have told you, but it helps to fill up the papers and make a letter of decent length after six months of slience, and thenhere's the tail end I promised youthis sane, irisane, old fellow is named Calden, and he's the father of that Miss Judith Calden that you were so nearly dead gone on two years ago in New York, when you were at hospital practice. Now don't say you weren't, and don't say I haven't given you something to thing over while you're waiting for those patients who never come and who are a dead bother when they do come.'

To be Continued.)
